Indsys Technologies

To

Director / Principal

Subject: Proposals for school management system

Object of proposal

Dear sir from last two year we did hard work and develop excellent school management software with cover all segment of school like subject , course, batch, account, fee, staff salary, exam, inventory, library, hostel, transport system, student portal, employee portal, parent portal and so on and alerts so we are very glad to deploy this application at your campus.

About My Company

Indsys Technologies (www.indsys technologies.com) is leading company in Web Technologies and Software development with highly skilled professionals to provide cutting edge solutions to its clients. We are software firm which provides software solution related to school/college, ecommerce, social media mobile apps and open source. Our clients come to us with all of these challenges and many more. We are here to help you be successful and have a great track record of partnering with businesses such as yours. School Care ERP is one of most popular product of my firm which deals with all tasks of school/college like maintaining course, batches, subjects, assignment of subjects, connect batches with courses, assignment of subjects and batch with employee, manage employee record, manage employee salary details, pay salary, generate pay slip, manage attendance for employee via manual as well using biometric fingerprint (if biometric service is taken), manage student, manage student records with his/her parents detail, manage student attendance, manage library system, set working days for school, manage holiday, events, manage time table, manage exam schedule, manage exam credit, create grade card(result) template for courses, set exam term, set percentage for course, generate report card, generate I-Card in bulk or individually, create SMS template and send SMS to student , parents, employee using SMS templates, track school bus online, student can also track himself online, school can make its exam schedule, test schedule, result online for student, student can check exam schedule, result , events, time table etc. Also parents track their children online using this product. School can send message to individual or multiple student and these messages appear on the student and parent panel dashboard after sign in by using their username and password.

Why Choose School Care ERP

1. Just of because we have strong software application that is error less.
2. Dedicate support team for our user to provide instant help.
3. Online portal helps parent to communicate to any specific subject teacher or management. It helps to get all possible details instantly and they are being informed through SMS alerts. They are able to download or can take prints of all academic reports, attendance reports, syllabus, timetable, etc.
4. Online portal helps management in searching students and get all details at a glance.
5. Online portal helps teacher to communicate to the parents and keep the track of communication. It is being proven very time saving module in all spheres and teacher.
6. Teacher can also download syllabus, timetable, reports etc. and get it printed.
7. School administration gets the access to each activity of student and teachers at single platform.
8. Email and SMS capabilities provide schools significant expense savings for postage, printing and reproduction.
9. One Complete dynamic website for school absolutely until you uses my service.
10. Company will be providing the well Trained Person who will be located in the school for updating, maintenance, data entry and all the issues related to the software only.
11. Create custom SMS messages once and reuse later when need it.
12. Get free website for your school with contact us form and admin panel
13. Database backup is done in regular interval daily to safe your data and stored on cloud.
14. Get weekly reports in your mailbox.
15. Access your school records from remote location in anytime anywhere using mobile, tablet or laptop.
16. We provide tracking system for each required activity.
17. Online support.
